Critical Time Intervention

The Crisis Solutions Coalition Challenge

- Recommend & establish community partnerships to strengthen the continuum of care.
- Promote education & awareness of alternative community resources to the use of emergency departments.
- Make recommendations related to data sharing to help identify who, when and where people in crisis are served, and what the results of those services are.
- Create a repository of evidence-based practices and provide technical assistance to LME/MCOs, providers, & other partners on how to respond to crisis scenarios.
- Recommend legislative, policy & funding changes to help break down barriers associated with accessing care.
